👤 Profile

Full-Stack Software Engineer and ITI graduate with over 2 years of experience specializing in **React** and **Python-based frameworks (Django, FastAPI, Odoo)**. Proven track record of **investigating complex codebases** to deliver scalable features and integrating AI-driven functionalities. Strong background in **technical leadership** and system design, with a focus on building production-ready applications that leverage SQL databases and modern state management.

🧠 Skills

Frontend Engineering

- React (Context API, Hooks, Component-Based Architecture, State Management)
- JavaScript (ES6+), HTML5, CSS3
- Responsive UI Development
- Tailwind CSS, Bootstrap
- Angular (basic)
- HTMX, jQuery

Databases & Data Management

- SQL Databases: PostgreSQL, MySQL
- ORM Concepts: Django ORM, Odoo ORM
- Data Modeling & Relational Database Design

AI & Innovation

- Experience with AI API integration
- Prompt Engineering, and familiarity with Chainlit/ML concepts.

CMS Implementation

Architected and managed a custom CMS integration for [Project Name], streamlining content delivery and allowing non-technical stakeholders to update site assets independently

Backend Engineering

- Python (Django, Flask, Odoo)
- RESTful API Design, Development, and Integration
- Server-Side Logic & API Architecture
- Authentication & Authorization (role-based access)

DevOps, Version Control & Tools

- Git, GitHub (pull requests, code reviews)
- Docker (container basics)
- Linux (Ubuntu)
- Environment setup, debugging, and production support

Design-to-Development

Translated high-fidelity Figma wireframes and prototypes into functional web components, ensuring 100% design accuracy across the UI.

Workflow Integration

Leveraged Figma for UI/UX design and [Specific CMS, e.g., Headless CMS/WordPress] for backend content management, reducing project turnaround time by 15%.

🎓 Education

Bachelors (GPA: 3.2)

Faculty of Navigation Science and Space Technology, Beni Suef University

09/2018 – 05/2023 | Beni Suef, Egypt

📋 Internships

Intensive Code Camp – Full Stack Web Development (Python)

Information Technology Institute (ITI), 4-month program

03/2025 – 09/2025 | Alexandria, Egypt

- Completed a 4-month intensive full-stack web development program focusing on Python, Django, Flask, and React.
- Developed responsive web applications, implementing frontend interfaces with React and backend logic with Python.
- Gained hands-on experience in API integration, database management (SQL), and deployment workflows.

- Collaborated on projects simulating real-world development environments, practicing problem-solving, code debugging, and teamwork..

Professional Experience

Mernan 

12/2025 – Present | Remote

Software Developer

- Developed and maintained full-stack web applications using React for frontend interfaces and Python (Django) for backend services.
- Built reusable, component-based React UI components and integrated them with RESTful APIs.
- Designed and optimized server-side logic, ensuring performance, scalability, and maintainability.
- Worked with SQL databases to manage application data and improve query performance.
- Collaborated using Git/GitHub, participated in code reviews, and investigated existing codebases to deliver new features.

CSD Solutions

06/2025 – 12/2025 | Remote

Fullstack Developer

- Developed and delivered production-ready full-stack web applications using Next.js (React) for frontend development and FastAPI (Python) for backend services.
- Built server-rendered and client-side React components, optimizing performance and user experience.
- Designed and implemented RESTful APIs using FastAPI, including request validation, error handling, and API documentation.
- Integrated frontend applications with backend services and third-party APIs to support data-driven features.
- Worked with SQL databases to design schemas and manage application data.
- Collaborated via Git/GitHub, participated in code reviews, and investigated existing codebases to implement new features

Projects

Mernan 

Marketplace & Freelance Platforms

- Full-stack Next.js marketplace integrating Supabase auth/data, AWS S3 storage, Google APIs, and multi-language support (i18next).
- Built Freelance CV generator using Next.js, React, Tailwind, and PDF tooling.
- Designed production-ready architecture suitable for real users and client deployment

CSD Platform 

Full-stack SaaS Dashboard

- Built production-ready backend with Python FastAPI, PostgreSQL, SQLAlchemy, JWT authentication, and Stripe integration.
- Developed Next.js + TypeScript frontend with OpenAPI integration, typed client, and modular architecture.
- Implemented API integration, environment-based configs, and secure deployment-ready setup.

Elaik 

E-Learning Platform (under development)

- Developed Django REST backend with multi-app structure, JWT auth, S3 storage, and analytics/assessment modules.
- Built Next.js frontend with React, Zustand for state management, axios API calls, and responsive dashboards.
- Delivered a production-grade platform for students, educators, and administrators.

EduPro

ITI Graduation Project

- Full-stack student/educator e-learning platform with React frontend, dashboards, charts, query caching, and REST API integration.
- Backend MVP built with Python (Django/FastAPI) and SQLite; authentication and analytics implemented.
- Designed as a deployable, production-ready capstone project.

Obsidian Exchange 

Marketing Platforms

- Developed React + Vite frontends with Tailwind, Google Sheets integration, and payment features.
- Delivered client-facing, production-ready marketing websites for real-world use.

FoolsBoosting

Gaming Service Platform (under development)

- Developed full-stack platform using Next.js + React frontend and MongoDB backend.
- Implemented authentication, CMS integration, Tailwind styling, and Framer Motion animations.
- Delivered a production-ready SaaS platform for client use, demonstrating end-to-end development skills.

Training

Egyptian Universities Training Satellite Project

11/2022 – 12/2022 | Cairo, Egypt

Egyptian Space Agency

ITI summer bootcamp

09/2021 – 09/2021 | Giza, Egypt

IOT (72 hrs.)

Courses

Freelancing Basics

05/2025 – 06/2025

ITI Platform – MaharaTech

Database Fundamentals

04/2025 – 05/2025

ITI Platform – MaharaTech

Linux Essentials

03/2025 – 04/2025

ITI Platform – MaharaTech

Introduction to Programming Using HTML & CSS

03/2025 – 04/2025

ITI Platform – MaharaTech

Introduction to Programming Using JavaScript

03/2025 – 04/2025

ITI Platform – MaharaTech

Extracurricular Activities

Team Leader – AIESEC in Egypt

Feb 2019 - Jan 2020

- Led a team of 5 in managing volunteer exchanges
- Took full responsibility for OGV operations in the absence of a VP
- Handled recruitment, matching, and global NGO coordination
